Providence, RI 02903 • +1(401)-696-0113 • sjoo01@risd.edu

PROFESSIONAL SUMMARY

Designer and artist working across visual communication, art, and creative coding, with a background in metal arts and design. I bring material sensibility and a digital perspective into my work, with experience in coding-based creative processes. I approach creative challenges with critical thinking, dedication, and a genuine curiosity to grow.

SKILLS

Adobe Creative Cloud (Illustrator, Photoshop, InDesign, After Effects, Premiere Pro)

AutoCAD

Metal smithing & Sculptural Metalworking

Digital Illustration

Creative Coding (Arduino, p5.js, Visual Studio Code, HTML, CSS)

Blender

3d modeling

Experience

CTC Department Monitor Job, 04/2026 to Current

Computation, Technology and Culture Department – Providence, RI

I'm currently working as a monitor in Computation, Technology and Culture department, to help students with equipments such as Pen plotter, 3D printers and web checkout.

Designer / Participant, 05/2025 to 07/2025

Government-Led Public Design Project – Samseong Station Area, South Korea

- Selected to participate in a government-led public design workshop focused on restructuring community space near Samseong Station.
- Played an active role in field research and resident interviews within a collaborative team, uncovering key accessibility and user-experience issues. Translated research findings into spatial design concepts and visual proposals, contributing to the design development process.
- Delivered and submitted final design proposals to the local district government, which were approved and implemented, resulting in tangible improvements to the public space.

Team Leader / Artist, 10/2024 to 12/2024

2024 Artphil Collaborative Exhibition – Seoul, South Korea

- Led a collaborative team project for the 2024 Artphil Collaborative Exhibition, producing an installation artwork exploring the relationship between humans and computational systems.
- Directed concept development, design, and installation across two exhibition spaces, including a rooftop installation, guiding the team's creative process from initial ideation to final exhibition.
- Awarded First Place for innovative concept and cohesive execution, receiving a \$500 honorarium.
