SUMMARY

Designer and artist working across visual communication, art, and creative coding, with a background in metal arts and design. I bring material sensibility and a digital perspective into my work, with experience in coding-based creative processes. I approach creative challenges with critical thinking, dedication, and a genuine curiosity to grow.

SKILLS

Adobe CC	Illustrator, Photoshop, InDesign, After Effects, Premiere Pro
Creative Coding	Arduino, Raspberry Pi, p5.js, Python, HTML, CSS, React
3D & Fabrication	AutoCAD, Blender, 3D Modeling
Craft	Metal Smithing & Sculptural Metalworking
Other	Digital Illustration

EXPERIENCE

CTC Department Monitor

Computation, Technology and Culture Department — Providence, RI | 04/2026 – Present

Supporting students with equipment including pen plotters, 3D printers, and web checkout in the CTC department at RISD.

Designer / Participant

Government-Led Public Design Project — Samseong Station Area, South Korea | 05/2025 – 07/2025

- Selected to participate in a government-led public design workshop focused on restructuring community space near Samseong Station.
- Conducted field research and resident interviews, uncovering key accessibility and UX issues. Translated findings into spatial design concepts and visual proposals.
- Submitted final design proposals to the local district government; proposals were approved and implemented.

Team Leader / Artist

2024 Artphil Collaborative Exhibition — Seoul, South Korea | 10/2024 – 12/2024

- Led a collaborative team project producing an installation artwork exploring the relationship between humans and computational systems.
 - Directed concept development, design, and installation across two exhibition spaces including a rooftop installation.
 - Awarded First Place for innovative concept and cohesive execution; received a \$500 honorarium.
-
